NEW 1956 ONCOBREDS

By C. G. WHITE

Several collectors and breeders who had the opportunity to visit Mr. White's garden in 1955 came to me urging me to release his newly flowered seedlings as soon as possible, for all were most enthusiastic over his new seedlings. To meet this demand, I am introducing a few of his oncobreds that are rapid increasers even though they first flowered in 1955. These are introduced quickly and on very small stock, for I feel breeders should be given every opportunity to quickly avail themselves of Mr. White's outstanding contribution to this exciting field of Iris breeding.

IMAM ADIB (White No. 14, '55)—A large primuline yellow oncobred patterned with splashes of brown and a suggestion of a brown signal patch. Very few plants for sale....\$20.00

IMAM AHMID (White No. 37, '55)—Standards are lilac deeper veined, and the falls are old gold dusted with golden sparkles. It's a vigorous plant with large flowers. Only a few available.....\$20.00

IMAM JABAN (White No. 5, '55)—A large bicolor with oyster-shell white standards and primuline yellow falls. Few plants available.....\$20.00

IMAM SALAH (White No. 7, '55)—A large sulphur yellow oncobred with amber yellow overtones on the falls and the whole flower accented by a dusky purple signal. Only two or three plants to go.....\$25.00

KALIFA KABUL (White 33b, '54)—This curious olive green oncobred has abundant pollen and will seed; so it will be useful to breeders of oncobreds, breeders for green, and for arrangement enthusiasts who want something with strange and different color. It is unusually vigorous, free flowers and rapid of increase for a plant in this group. Standards are chartreuse shading to Indian buff at the base and the falls are absinthe yellow marked with olive sheen and Indian buff. The whole flower, especially the falls, are splashed brown.....\$12.00

SAYYED YARMUK (White 3b, '52)—This large prolific bicolor oncobred has light lobelia violet standards and dark Spanish raisin falls with a blended buff border. It is a handsome and unusual color combination and a strong growing plant. Abundant pollen and sets seed.....\$12.00

ONCOCYCLUS HYBRIDS

1956 Introductions by Tom Craig

ABSYNTHE (Craig)—For one craving the unusual, Absynthe is the answer. Its color is unexpected; you don't forget it. An image of it stays with you like a habit. Its a big oncobred done in olive yellows with absinthe yellow overtones. (Variegata seedling x Joppa Parrott).....\$10.00

PINK IRIS By FISHER HARRIS

Mr. Harris is a perfectionist and therefore most critical of his own seedlings. Now that he finally agreed to the introductions of two pinks, you can be sure that they are good.

SHARI (Harris)—The excellence of the form and substance of this flower and its clear, rich, deep pink color are the qualities that made Mr. Harris choose this seedling for introduction\$15.00

LITTLE GEM (Harris)—This exquisite ruffled lacy miniature pink iris was one of our real finds at the 1954 American Iris Society Convention at Salt Lake City. This flower is a charmer and there is nothing like it. The more experienced and critical the collector, the more he covets this "Little Gem"\$20.00

NEW 1956 TALL BEARDED IRIS

By The Craigs

Everyone who ever became absorbed in flower breeding wishes that he had started earlier. All seven Craigs breed Iris and Day-lilies. So far I have monopolized what glory and pleasure there is in introducing. Now it is time that some space here be given to the younger Craigs who will eventually take over completely. That they are young, does not mean that they have less to offer. They have all been at it for years and have raised great numbers of seedlings from good parents. Few judges are more critical than they are. A wise collector will not take their efforts lightly.

ANKARA (Ivan Craig)—A full ruffled flower of very deep velvety red in a fancy plicata pattern. The throat and beard are yellow. (Joseph's Mantle x Gene Wild.) A richer, finer flower than its grandparent, Rich Raiment.....\$10.00

ROSEWINE (Ivan Craig)—A very large and full blended rose-colored Iris that often re-flowers in the fall. It grows like a weed and flowers very heavily. (Ball Gown x Rose Sachet.).\$10.00

DONNA (Tim Craig)—A great big flower of light golden brown. It's one you will sure like. (Wardance x Golden Perch.)\$15.00

HUSH (Kenyon Craig)—This is a big, quiet, light yellow flower with the center of the falls very light. (White Ruffles x Tom Craig seedling.).....\$10.00

AMBUSH (Kenyon Craig)—A big, very bright red blend. (Molten x (Tom Craig seedling of Savage x Mex Magic.))..\$10.00

VENGEANCE (Tom Craig)—From Frosty and Gene Wild comes this extremely ruffled, full lavender and creamy white plicata. It is very floriferous and there are many large flowers on its widely branched 36" stems. It increases very rapidly, hence only.....\$10.00

BLUE SILHOUETTE (Tom Craig)—This big tall medium blue Iris will prove an outstanding contender for that favored place at the back of your border. Its classic flowers are perfectly placed on 45-inch perfectly branched stems. (Headlands x Mary McClellan.).....\$20.00

RUTH COUFFER (Tom Craig)—Our cover gives a fair representation of this very deep, vibrant, red Iris. I like it as well as any red iris I have seen and it is also a very different sort of red. (Savage x Cordovan.).....\$25.00

LOIS CRAIG (Tom Craig)—The variety of color in this vibrant red blend defies description. It reminds me both of the iridescent plumage of tropical birds and light playing through stained glass in an old world cathedral. It is a deep toned symphony in reds, purples and browns with light, cool, sky colors playing on the surface. Among plants in the red range, this one is most outstanding for its elegant structure and great vigor. The flowers are very large and are borne on perfect tall, strong, slender, widely branched stems. It flowers heavily in spring and usually in the fall and it increases well. A few plants of this have been sent out for trial as No. 54-8 (((China Maid x Tiffany) x Mexican Magic)) x (Savage x Molten)).....\$25.00

DAYLILY INTRODUCTIONS

NEW 1956 DAYLILIES

By "CRAIG'S KIDS"

We're popping the buttons right off our shirt for the pride we feel in introducing for the first time some of our kids' own hybrids. We're not only proud because it's our kids who are marking the introductions but because we know their introductions will hold their own and even surpass those of hybridizers of real reknown. Here's their descriptions.

Timmy Craig's Daylily Introductions

PURPLE GIANT—This is a really big dark daylily with a color so unusual that when held alongside other purple day-lilies makes them look brown or red. Semi-evergreen....\$15.00

EYED GIANT—This daylily is tall and really big. It is light apricot with a big dark apricot eye. Semi-evergreen.....\$ 5.00

Kenyon Craig's Daylily Introductions

LULUBELLE—This dwarf daylily grows very short and has lots of ruffled apricot flowers.....\$ 3.00

TUTTIFRUTTI—This daylily has bright apricot flowers with big wide petals. The stems are straight and stiff.....\$10.00

Ivan Craig's Daylily Introductions

SILVER BELLS—Open bell like flowers of soft yellow with a light band are born on fine strong, slender stems.....\$10.00

INDIAN WARRIOR—This giant red flower with a yellow throat opens very flat and has very heavy substance....\$10.00

1956 CRAIG DAYLILY INTRODUCTIONS

AFIRE (CRAIG)—This brilliant ember and hollyberry red flower with a golden yellow throat strikes me with its clarity and purity of color. It is a strong evergreen plant with tall well branched stems.....\$15.00

BLACK SIREN (CRAIG)—This full flower of deep glowing tapestry red with a crimson undertone flashes large eyes blacker than any color in our flower garden. It commands attention for novelty and beauty.....\$20.00

POLISHED JEWEL (CRAIG)—This velvety red will appeal to one who wants to hold the flower in his hand to enjoy the jewel-like perfection of color and pattern of contrasted cool, yellow throat and deep glowing perianth. Evergreen. Tall..\$15.00

REAL GOLD (CRAIG)—This bold golden orange makes a fine garden show, displaying itself to best advantage when the rest of the garden lies wilted and burned by the heat. A quality flower and fine performer. Evergreen.....\$10.00

VALESCA—This blond amazon sent by the god of chance, never flowers without causing me to offer thanks and beam with pride. I hope you like her as well as I. Evergreen....\$25.00

GENERAL LIST DAYLILIES

Code: De.—Deciduous. Ev.—Evergreen. *—Night-flowering. F.—Fall delivery only. Height about 3 ft. unless otherwise specified. Numeral in front of a variety gives the position of that variety on the popularity poll of The American Hemerocallis Society.

Over 500 carefully selected daylily varieties are listed here. It is the finest selection offered anywhere. For real bargains, study our collections on page 17—

Or look at our ads in the yearbook of The American Hemerocallis Society or in the classified ads in Popular Gardening and Flower Grower. We grow almost 1500 daylily varieties and there is not space here to list them all.
